RIOTING OVER A STEEL STRIKE

GOV. STONE ORDERS TROOPS TO GO TO LEBANON, PA.

Series of Riots Over the Importation of Negroes to Break the Strike-A Boy Killed-Violence So Great That the Negroes Will Be Sent Away To-day.

LEBANON, Pa., Sept. 23 .- Gov. Stone has ordered out the military to protect the steel works here. William Hoffman, 17 years old, was killed and Henry H. Carmany wounded last night, while standing in the crowd before the American Iron and Steel Works. Hoffman, who was a messenger boy in the American company's general offices, was shot in the head, the bullet entering at the right temple, crashing into the brain. He died within a half hour, without regaining consciousness. It was the outcome of a series of riots because negro labor has been introduced to break the strike.

Carmany, who is a former chief engineer of the city Fire Department, has a flesh wound in the right cheek, which is not thought serious. The fatal shot was fired about midnight. Lawrence Dohner, a boy who was with Hoffman at the time, says that Hoffman and he were on their way home at 11:15 o'clock when their attention was attracted while they were on the Ninth street crossing of the Philadelphia and Reading Railway by a number of shots. The discharges came from the American works and Hoffman suggested that they go down to see what was going on.

Dohner remonstrated, but when Hoff-

man declared, "We won't be shot; I am used to this; I am down there every day, and started toward the works Dohner followed. Dohner said he and Hoffman stood almost directly opposite the gate. He, like most of the others, stood close to the cars, but Hoffman, in spite of his warning, stood several feet away.

Suddenly he saw Hoffman pitch forward on his face and knew he had been shot. Dohner said that all the while he was in the crowd he could not detect any firing from the works, but added there might have been. He declared shots were being fired into the works by some persons in the crowd which was strung along the cars on the railroad.

He is, however, confident that the bullet that killed Hoffman did not come from the works, but from the vicinity of Fourth and Weidman streets, one square from the works.

A delegation went to Harrisburg this morning and asked Gov. Stone to send troops to Lebanon to quell the riotous strikers. The Sheriff says that he does not think he can restrain them any longer.

The negroes will leave the works here to-morrow morning, which means that the end of all the trouble is in sight. Supt. Gulliney notified Mayor Hess this afternoon that the negroes would be sent away in a body in the morning and the Mayor at once despatched two officers to the scene to pacify the crowd and tell them the news.

The negroes wanted to stop work this morning, as they expressed the fear that their lives would be taken if they remained here much longer. They are packing their effects and they will be glad to go in the morning. Chief Copenheave and Manager Lord, with their counsel, Thomas H. Capp and E. E. McCurdy, this morning went to Harrisburg, and after reviewing the trouble here asked that State troops be sent to maintain order.

HARRISBURG, Pa., Sept. 23 .- Gov. Stone has ordered the First Battalion of the Twelfth Regiment of the National Guard to Lebanon, where there was serious trouble last night and to-day, growing out of the strike at the nut and bolt works. Major Charles P. Gerhart of Danville commands the battation

This was decided upon to-night after long conference between the Governor, Adjutant-General Stewart, Attorney-General Elkin and Sheriff Copenheave. The conference was held at noon and there were in the party Sheriff Copenheave, T. H. Capp, the Sheriff's attorney; H. C. L. Sherk E. C. McCurdy, J. H. Stamberg, president of the company; James Lord, and Thomas

When the Lebanon party arrived Gov Stone sent for the Attorney-General and the Adjutant-General. The attorney for the Sheriff, Mr. Capp, gave a story of the riot, disorder and bloodshed that have resulted since the attempt was made to sub stitute negro strike breakers in the place of the regular employees at the works who are on strike. He told of the assaults of the mob on these who wanted work, and asked the Governor to aid the Sheriff in protecting the city. Goy. Stone learned that the Sherig had endeavored to preserve order, but that he could no longer get deputies to take the places of those driven away by the mob. He was told that there have been five riots in Lebanon in twenty-four hours and that

the town is absolutely in the hands of a mob SOLDIERS CHARGE BAYONETS ON MOB.

Col. C. N. Clement with his staff and the Second Battalion of the Twelfth Regiment with the band arrived here at 9:12 o'clock this evening on a special train from Shen andoah. For the first time in the city's history State troops are here to preserve order and protect property.

The soldiers had a stormy reception by a crowd of some thousands at the station and checked an incipient demonstration against them by promptly charging the crowd, taking six prisoners at the bayonet The Sheriff had Col. Clement march his soldiers to the American works immediately upon their arrival and the shooting. which had been kept up all evening, ceased. Capt. H. M. M. Richards, treasurer of the American Iron and Steel Works, was shot to-night while standing with President K. H. Sternbergh, Manager James Lord and Supt. Culliney in the puddle mill office at the works. The bullet came from the cornfield outside the works and inflicted a slight wound. The battalion is guarding the works and no one is allowed near.

GANG OF YEGGS ROUNDED UP

HAVE BEEN BLOWING SAFES UP THE STATE THIS SUMMER.

Four of the "Evansville Slim Outfit" Under Arrest at Syracuse - Described as a Remnant of the Goat Hinch Gang. Two of Whom Are Doomed to Die.

SYRACUSE, Sept. 23.-The "Evansville Slim outfit," a gang of hobo post office and bank robbers who have been operating in eastern and central New York for many months, has been rounded up here. The men arrested are known in the criminal directories as "Evansville Slim," "Bridgeport Billy," William Thompson, alias William Black, and James Stamford, who is supposed to be "Pawtucket Johhny." A large number of post offices in small towns in the country around Albany and Utica have been robbed in the past six months and practically all of these crimes are believed to have been committed by the "outfit," whose members are "yeggs," or, in other words, hobo robbers who specialize in that they invariably use nitroglycerine n working their graft.

On Sept. 11 an attempt was made by four men to rob the First National Bank of Holland Patent, about twenty miles from Utien. Nitroglycerine was used. The explosion alarmed some citizens and the gang fled. The bank is one of those belonging to the American Bankers' Associa-tion, and the Pinkertons set out to run the robbers down. On Sept. 17 the post office at Favetteville was broken into, the safe was blown open, and \$532.53 in stamps and

Statistics of the Pinkerton men got a fairly good description of the men in Holland Patent and learned that they had gone further west. When he arrived in Syracuse he heard that labout a dozen prisoners had been taken in a raid made late Saturday night on a resort frequented bypanhandlers. The prisoners had been admitted to bail.

But when they appeared yesterday the detective and Post Office Inspectors S. P. Kyle of Syracuse and C. C. James of Sauger-ties were on hand and picked out three of them as the men wanted. They were "Evansville Slim," "Bridgeport Billy," and "Stamford." Thompson, or Black was ar-rested to-day. He is over 50 years old and has iron gray hair. He is said to be a "first class operator with the soup," this meaning he is an expert in handling nitro glycerine

PRIVATE DETECTIVE NABBED. Arrested in a Pecultar Case Involving the Loss of a Watch Fob

Claude S. Hanks, 23 years old, a private detective employed by the Thiel Detective Agency of this city, was a prisoner yesterday in the First Criminal Court, Jersey City, accused of larceny from the person. The complainant was Neale Ransom, superintendent of agencies of the Mutua Reserve Life Insurance Company, who lives at 73 Clifton place, Jersey City.

When Ransom left the company's office Broadway and Duane street on Monday vening he looked at his gold watch, to which a fob was attached. He noticed that a young man who stood at the street door cast what he considered an envious glance the watch watch. The stranger started to him, and Ransom, concluding that he was a pickpocket, decided to lay a trap,

So be detached the fob from the watch and fixed the fob so that it dangled from his waistcoat pocket. He went aboard a Cortlandt street ferry boat, with the trailer close behind him. As he was leaving the boat with a crowd of hurrying commuters, Ransom says, he discovered that the fob was missing, and he located the trailer and

turned him over to a policeman.

Hanks dealed that he was a thief. The
fob was found in his side coat pocket and
he was locked up. Later Chief Murphy
had a confidential talk with him which resuited in his being released in \$100 bail.

Hanks admitted in court yesterday that
he had been instructed by his superiors
to shadow Ransom. He said that he was
aware of the fact that Ransom knew that
he was being followed, but he kept up the trail in order to report that he had shadowed the right man. Hanks said that he couldn't explain how the fob came into his possession.

He found it in his pocket on the boat, after feeling somebody touch him on the shoulder. Supt. Wisch, of the Thiel Detective Agency said that he believed that Ransom had an idea how this fob was transferred from his pocket to Hanks. Ransom said that he was firmly convinced that Hanks

Police Justice Hoos paroled the detective in the custody of Chief Murphy, who said that he would stand sponsor for him. The papers were sent to the Grand Jury.

TUNNEL ALONG RIVER FRONT.

ON THE JERSEY SIDE, AND FOR TROLLEY CARS ONLY.

Purpose, to Connect With the Trol tey Tunnel Crossing to This City Under the River Will Be a Outel Route to Three Railroad Terminals

The plans of the Hudson and Manhattan Railway Company, which was incorporated under the laws of New Jersey with a capital stock of \$100,000 a few days ago, were partly disclosed in Jersey City last night The company proposes first to build a tunnel under the land in Jersey City skirting the Hudson River from the Eric Railroad at Pavonia avenue south to the terminal of the Jersey Central at Communipaw. It will pass under the Pennsylvania Railroad at Hudson street. The charter also authorizes the com-

pany to operate cars in a tunnel under the Hudson, as far as the boundary line between New Jersey and New York, where it will connect with a tunnel to be constructed by a company to be incorporated under the laws of New York.

It is said that the charter will be amended so that the tunnel under land may be exanded north from the Erie Railroad as far as Fifteenth street, where it will connect with he trolley tunnel under the Hudson River. on which work has been begun. The proposed tunnel will be a feeder for the river trolley tunnel and will permit passengers o go from New York to the Erie, Pennsyl vania and Central railroads in a few min utes. The tunnel station for the Pennsylvania Railroad will be at Hudson street and Exchange place.

The steam railroad companies are n interested financially in the Hudson and Manhattan Railway, it is said, although they are tavoring its construction. The Jersey Central is practically cut off from lower Jersey City by the gap at the foot of Wash-Jersey City by the gap at the toot of washington street, and persons in Jersey City who want to go to it generally cross one of the ferries to this city and recross to Communipaw on the Central ferry. The proposed tunnel will enable them to reach Communipaw quickly from the Exchange piace and Pavonia avenue stations.

William C. McAdoo, president of the company which is building the trolley tunnel from Fifteenth street, Jersey City, to this pany which is building the trolley tunnel from Fifteenth street, Jersey City, to this city, is interested in the Hudson and Man-hattan Railway Company. Of course, its capital stock will have to be increased from its present issue of \$100,000 before it can
